## SPORTS BUSINESS & ANALYTICS PROFESSIONAL

New York, NY | (516) 547-2813 | justin.ioanitescu@gmail.com | linkedin.com/in/justin-ioanitescu

## PROFESSIONAL SUMMARY

Sports business and analytics professional with experience spanning NHL operations, global football, sponsorship intelligence, athlete marketing, brand strategy, financial planning, and major-event execution. Combines hands-on live-event operations with data analytics, dashboard development, market research, and partnership strategy. Proficient in Power BI, Tableau, SQL, Python, R, Excel, Power Query, CRM reporting, KPI analysis, data visualization, and executive presentations.

## PROFESSIONAL EXPERIENCE

**Operations Associate** **Nov 2025 – Present**
*New York Islanders* *Elmont, NY*

- Built and maintained event-day datasets combining foot traffic, activation participation, concession indicators, and operational signals to identify peak-demand windows, congestion points, and fan-engagement trends.
- Developed Python, SQL, and R workflows and Tableau/Power BI dashboards for repeatable KPI reporting, game-to-game performance tracking, and spatial analysis of arena and outdoor park operations.
- Presented post-event findings and recommendations on staffing allocation, activation placement, fan flow, and guest experience to operational stakeholders.
- Executed game-day arena and park operations, supporting retail and coordinating with broadcasting, security, community relations, season-ticket services, and event operations.

**Supervised Research Project: Advanced Sports Marketing** **Sep 2025 – Dec 2025**
*FC Bayern München / Columbia University* *New York, NY*

- Collaborated with FC Bayern executives on marketing challenges involving sponsorships, digital strategy, globalization, fan engagement, and North American growth.
- Conducted independent and team research on global sports trends and player-development models; produced strategy briefs and presentations grounded in academic frameworks and industry best practices.

**Sponsorship Scout** **Aug 2025 – Oct 2025**
*SponsorUnited* *Stamford, CT*

- Analyzed live broadcasts, venue signage, digital activations, and sponsorship data using SponsorUnited research tools to evaluate brand partnerships and emerging industry trends.
- Created data-driven reports and infographics summarizing sponsorship activity across leagues, properties, and markets to support prospecting and strategic decision-making.

**Coordinator** **Jun 2025 – Jul 2025**
*FIFA Club World Cup 2025* *East Rutherford, NJ*

- Supported Host City and tournament operations across venue readiness, accreditation, team services, transport logistics, stakeholder coordination, documentation, and official event delivery.
- Contributed to fan activation, community initiatives, operational simulations, stakeholder briefings, and pre-tournament rehearsals while working within FIFA governance and delivery standards.

**Sports Marketing & Sponsorship Intern** **May 2024 – Aug 2024**
*20/20 Management* *New York, NY*

- Researched and prospected talent, contributing to roster growth from 15 to 20 athletes over eight weeks.
- Supported 20 athletes across the NBA, college basketball, NFL, MLS, WTA, and high-school prospects with personalized marketing and sponsorship strategies, market analysis, KPI tracking, and brand-partnership outreach.
- Assisted with 10 sponsorship pitches and competitive analysis of athlete endorsement deals to strengthen partnership positioning and outreach strategy.

**Brand Marketing & Financial Planning Intern** **Jun 2023 – Jan 2024**
*VLTED* *Las Vegas, NV*

- Managed a 10-intern team and $2,000 marketing-project budget, reducing costs by 30% through research on economical marketing methods across eight states.
- Developed consumer-demand and predictive sales models to evaluate fan engagement, marketing investments, and ROI; supported brand positioning, pricing strategy, partnerships, and growth initiatives.

**Marketing Consultant Intern** **Jun 2023 – Aug 2023**
*Verizon* *Melville, NY*

- Conducted market and consumer research, analyzed website and social-media performance metrics, and identified target demographics to inform customer-conversion strategy.
- Developed and refined a budget-aligned digital marketing plan, using performance data to recommend higher-impact channels and improve campaign efficiency and customer acquisition.

## EDUCATION

**Master of Science, Sports Management — GPA 3.83** **Feb 2026**
*Columbia University* *New York, NY*

**Bachelor of Science, Industrial & Labor Relations — Business Minor — GPA 3.70** **May 2024**
*Cornell University* *Ithaca, NY*

## CERTIFICATIONS & TECHNICAL TRAINING

**Microsoft Power BI Data Analyst (PL-300)** **Jun 2026**
*Microsoft*
**Sports Analytics and AI Certificate** **Aug 2025**
*Sports Management Worldwide* *Portland, OR*
**Data Analytics & Visualization Program** **Mar 2026 – Jun 2026**
*QuickStart*
- Training included Excel, SQL, Power BI, Python, Tableau, business analysis, data visualization, and project-management workflows.

## SELECTED ANALYTICS & BUSINESS PROJECTS

**Park Operations Analytics Dashboard** **2025 – 2026**
*New York Islanders*
- Developed a centralized analytics environment for outdoor park operations and fan engagement, combining KPI reporting, operational tracking, spatial visualization, and post-event insights.

**Business Analyst Simulation Project** **2026**
*QuickStart*
- Gathered requirements through stakeholder interviews, mapped processes and gaps, developed a Business Requirements Document, and supported a mock technology implementation using SQL, Azure, Power BI, and project-coordination tools.
